Projects

ANSHORI.CO – NextJs

Deployment link: <http://anshori.co/>

Repository link: <https://github.com/anshoriacc/anshori.co>

This is my personal and portfolio website built using NextJs. I also use this website as my playground, such as using new packages I've newly discovered, or compare 2 or more packages.

MADURA TOURISM CENTRE – ReactJs

Deployment link: <https://maduratourismcentre.id/>

This is a company web profile that I've worked for Madura Tourism Centre, an Information page of Madura tourism, history and culture. This website built using ReactJs.

RAZ FURNITURE – NextJs and ExpressJs

Deployment link: <https://raz-garlic.vercel.app/>

Repository link: <https://github.com/anshoriacc/raz-webapp-nextjs>

This is a bootcamp project, working on a team as a fullstack role. RAZ FURNITURE is an ecommerce web that sells furniture. This web application built with NextJs in frontend side, and ExpressJs in backend side. There are some features in this projects such as authentication, profile, products, cart, checkout, history, track order, favorite, etc.

ZWALLET – NextJs

Deployment link: <https://zwallet-next.vercel.app/>

Repository link: <https://github.com/anshoriacc/zwallet-nextjs>

This is a bootcamp project, working as individual. ZWALLET is a wallet app. This web application built with NextJs. There are some features in this projects such as authentication, profile, topup, transfer, history, etc.

VIOLET COFFEE SHOP – ReactJs and ExpressJs

Deployment link: <https://violet-coffee-shop.netlify.app/>

Repository link: <https://github.com/anshoriacc/violet-coffee-shop-frontend>

This is a bootcamp project, working on a team as leader and fullstack role. VIOLET COFFEE SHOP is an ecommerce web that sells foods and beverages. This web application built with ReactJS in frontend side, and ExpressJS in backend side. There are some features in this projects such as authentication, profile, products, cart, checkout, history, dashboard for admin, etc.

VEHICLE RENTAL WEB – ReactJs and ExpressJs

Deployment link: <https://vehicle-rental-reactjs.netlify.app/>

Repository link: <https://github.com/anshoriacc/vehicle-rental-react>

This is a bootcamp project, working as individual. VEHICLE RENTAL WEB is an ecommerce web that rent vehicles. This web application built with ReactJS in frontend side, and ExpressJS in backend side. There are some features in this projects such as authentication, profile, products, reservation, history, etc.

VEHICLE RENTAL MOBILE – React-Native

Repository link: <https://github.com/anshoriacc/vehicle-rental-react-native>

This is a bootcamp project, working as individual. VEHICLE RENTAL MOBILE is mobile version of VEHICLE RENTAL WEB. This mobile application built with React-Native. There are some features in this projects such as authentication, profile, products, reservation, history, etc.
