Projects

G19 TOUR & TRAVEL – Next.js & Node.js

Deployment link: <http://g19tourtravel.vercel.app/>

Repository link: <https://github.com/anshoriacc/g19-nextjs>

This was built for my undergraduate thesis. The objective is to transform the business model for a vehicle rental named G19 Tour & Travel. Built using next.js and node.js (express).

ANSHORI.CO – Next.js

Deployment link: <http://anshori.vercel.app/>

Repository link: <https://github.com/anshoriacc/anshori.co>

This is my personal and portfolio website built using NextJs. I also use this website as my playground, such as using new packages I've newly discovered, or comparing which is better from 2 or more packages.

MADURA TOURISM CENTRE – React.js

Deployment link: <https://maduratourismcentre.id/>

This is a company web profile that I've worked for Madura Tourism Centre, an Information page of Madura tourism, history and culture. This website was built using react.js.
